## COLLECTION STORAGE RENOVATION

We are in the home stretch of the three-year long collection review process. Part of the project involves a renovation of the Collection Storage facility and installation of painting and quilt racks. We are excited to announce that these construction and installation projects will be completed at the end of June and will mark the final phase of re-housing the collection.

## INTERNS AND VOLUNTEERS

Interns and volunteers returned to the Gibson House and Property in the Spring of 2021. Corrine Brown-Ticer assisted with organizing and sleeving the photo collection, which will be transferred to the Archives. Morgan Braun conducted research on an upcoming Spring exhibition.

## DIGITIZATION OF THE COLLECTION

In Fall 2021 we will begin the digitization of the collection. Equipment has been purchased and we are looking for volunteers who would like to assist in this process. Prior knowledge of photography is not required, but some familiarity with technology is desired. Digitizing the collection will enhance the user experience when searching the Axiell database, and will increase collection access. If you are interested in volunteering please email [iulia.bodeanu@yolocounty.org](mailto:iulia.bodeanu@yolocounty.org).
