

Community Resilience Center Walnut Park Library, Davis CA

As a Community Resilience Center, Walnut Park Library will be equipped to meet diverse needs, particularly during emergencies. To support all members of our community, we will offer essential services during:

Extreme Weather Events

When the days are extremely hot or cold, the Library will be open to help provide community members with a safe, climate controlled area.

Wildland Fire Smoke & Low Air Quality Levels

When the air quality is forecasted to be at unhealthy levels due to various reasons such as wildfire smoke, smog, emissions, etc., the center will be equipped with an advanced HVAC system to keep the air clean and circulating throughout the facility.

Power Outages

During outages, back-up power sources will allow the community to access the Library's wifi and recharge devices, including cell phones, medical equipment or other items.

The hours of operation for the CRC will be dependent on the emergency situation. For more information, please visit www.yolocountylibrary.org
