

Yolo County Early Care and Education Parent Survey:

2024 Survey Links

Parents, we are very interested in hearing from you on how you feel about Transitional Kindergarten. How have you received information, are you satisfied with the school districts planning, have you/are you enrolling your child or are you remaining in a preschool setting. Have you had to develop a plan for multiple layers of care to meet your work schedule for childcare? All of these questions will help us inform school districts and help families receive the support they need.

Thank you in advance for your time giving a voice to your family's needs.
